## **Apothecary Shoppe Becomes EMMA® System Value Added Reseller**

(Altoona, PA) INRange Systems, Inc. is pleased to announce that the Apothecary Shoppe in Midland, MI has become an INRange Value Added Reseller (VAR) for the EMMA® System.

According to Tony Pratt, INRange's Vice President of Sales and Marketing, "We are very excited about adding the Apothecary as a Value Added Reseller for the EMMA Systems. The State of Michigan represents a large opportunity for INRange to provide its remote medication management and we are pleased to have such an outstanding partner as the Apothecary Shoppe."

INRange's VAR program is focused on utilizing independent retail and closed door pharmacies as the provider of comprehensive medication management services utilizing the EMMA® System. These independent pharmacies provide their specialized treatment management to: Independent and Assisted Living Facilities, Case Manager Organizations for automobile accident victims and worker's compensation patients, individuals, Group Homes for the control of narcotics and Mental Health Organizations.

The Apothecary Shoppe, based in Midland Michigan, provides pharmaceutical services to Long Term Care facilities throughout Michigan. They employ over 175 Employees working in 3 retail locations, Midland and Traverse City, and the LTC closed pharmacy located in Midland. The downtown location will house the EMMA software and packaging equipment. This location is a full service pharmacy offering a full line of prescriptions, OTC, home health and durable medical equipment.

INRange Systems, Inc., based in Altoona, Pa., commercialized its remote medication management technology, called EMMA, last August. The technology can be wirelessly controlled by a pharmacist and enable patients to manage medications in a home setting. Because the technology has been cleared by the Food and Drug Administration (FDA), a patient is not required to have a medical professional present for medication disbursement.
